The Presentation by **Shri Ashok Sharma**

The guest speakers shared their views on handicraft development in Mumbai. It has been shared that the craft from Mumbai is yet to be explored up to business and professional level. There are very few entrepreneurs operating in Mumbai. The reason cited was lack of proper market and continues demand and at most inability of taking big orders. Further it has also been added that new designs are at all not there in the sector of handicrafts, so workshop aimed towards design development will help the willing artisans in coming up with new designs and products. Blend on new design with artistic passion of craftsman can add value to this traditional source of livelihoods in Mumbai.

OBJECTIVES OF SEMINAR

Handicrafts have big potential as they hold the key for sustaining not only the existing set of millions of artisans spread over length and breadth of the country, but also to increase large number of new entrants in the crafts activity. Presently, handicrafts are contributing substantially in employment generation, and export. The Handicrafts sector has suffered from basic problems of being in the unorganized sector with additional constraints like lack of education, capital, poor exposure to new technologies, absence of market intelligence and poor institutional framework. These problems have been further aggravated due to lack of proper care on the welfare of the artisans. In order to address the welfare needs of artisan, this seminar has been envisaged.
