SUBJECT: SEMINAR ON “HOW TO SAFEGUARD YOUR BUSINESS FROM CYBER CRIMES & IT SOLUTIONS” ON 14.03.2014 (FRIDAY) AT KOLKATA.

Dear Sir/Madam,

With the evolution of the Internet, along came another revolution of crime, where the perpetrators commit acts of crime and unlawful activity on the World Wide Web. Internet crime takes many faces and is committed in diverse fashions. The number of users and their diversity in their makeup has exposed the Internet to everyone. Some criminals in the Internet have grown up understanding this superhighway of information, unlike the older generation of users. This is why Internet crime has now become a growing problem in INDIA. Some crimes committed on the Internet have been exposed to the world and some remain a mystery up until they are committed against someone or some company.

Cyber crime is emerging as a serious threat. World wide governments, police departments and intelligence units have started to react. Initiatives to curb cross border cyber threats are taking shape. Indian police has initiated special cyber cells across the country and have started educating the personnel.

Realizing the importance of the subject, the Council is organizing a Seminar on “HOW TO SAFEGUARD YOUR BUSINESS FROM CYBER CRIMES & IT SOLUTIONS” at Kolkata on 14.03.2014 (Friday).

The program details are as follows:
