11th February, 2020

Trade Notice No. 49 /2019-20

To

1. RA's of DGFT
2. Customs Commissionrates
3. Members of Trade
4. Joint Secretary (Customs), Central Board of Excise & Customs,
Department of Revenue

Subject: Policy to keep control on exporters using self certified system for EU-GSP Registered Exporter System

All the exporters are requested to submit fortnightly statements in prescribed format on Statement of Origin issued. They are also requested to respond to the verification requests by EU within the prescribed time limit, failing which the Registered Exporter Number (REX) may be annulled. Frequently Asked Questions (FAQs) in this regard are enclosed.

(Rajbir Sharma)
Joint Director General of Foreign Trade
E-mail: rajbir.shrma@nic.in

[Issued from File No.01/93/180/56/AM-13/PC-II(B)/Part-1(E-1711)]

Frequently Asked Questions (FAQs) on the EU GSP

Origin Criteria (WO or PSR)

Question 1: Is there any difference in tariff or customs preferences if the wholly obtained (WO) criteria is used instead of the product specific rule (PSR)?

Reply: No, the tariff or customs duty preferences are the same i.e either tariff elimination if the product is non-sensitive and tariff reduction if the product is sensitive irrespective of whether the criteria is WO or PSR.

Question 2: When should an exporter use the wholly obtained (WO) criteria?

Reply: The WO criteria under Article 44 of EU regulation 2446/2015 should be used when all the inputs namely raw materials and intermediates used in the export product are originating in India. In case, there is a doubt on the origin of any input, used in the export product the WO criteria must not be used.

Question 3: How does an exporter ensure that the inputs used are originating in India and hence the wholly originating (WO) criteria is met?

Reply: The origin of inputs, both raw materials and intermediates can be ensured through the suppliers declaration, whose format is given in Annex 22-15 and 22-16 of EU Regulation 2447./2015. The suppliers of these inputs have to furnish the suppliers declaration that the inputs are wholly originating in India. The WO can be used by the exporter only if all the suppliers declaration clearly mentions that the inputs meet the WO criteria. As a good practice, the exporter must not use the WO criteria if all the suppliers are unable to furnish this declaration stating that the inputs supplied are WO.

Question 4: Can the exporter use the tolerance rule (for use of non-originating inputs) for wholly obtained (WO) products?

Reply: Under EU GSP, the tolerance rule for use of non originating inputs is **not** applicable for WO criteria. Nevertheless, it is applicable for product specific rules (PSRs) under Annex 22-03 of EU Regulation 2446/2015 even if the rule states that “*all materials used should be wholly originating*”.

Retrospective Issuance

Question 5: Can the “Statement on Origin” be issued retrospectively?

Reply: The “Statement on Origin” can be issued retrospectively from the date of application for registration of an exporter. For example, if an exporter made an online application for registration on 1 April but the REX number was issued only on 15 April; he can use the REX number allotted to him for issuance of “Statement on Origin” for exports made from 1 April onwards.

Question 6: Can an exporter issue a “Statement on Origin” in the intervening period between his date of application and the issuance of the REX number?

Reply: In the case of India, the REX number would be unique for an exporter and is known once the exporter decides on his Local User with whom the application is lodged. However, since the REX number has not been issued and is hence not in the EU’s system, the exporter cannot issue a “Statement on Origin” during the intervening period between the date of application and the date of issuance of this REX number. Nonetheless, once the REX number is allotted, he can issue a “Statement on Origin” for retrospective exports from the date of the application for registration.

Application for registration

Question 7: When an exporter provides an assent for sharing of data as per S.No 6 of the application, would the details of the buyer be disclosed?

Reply: No, the details of the buyers are neither sought in the application nor disclosed by the EU. By providing assent to the sharing of data in S.No 6 of the application, the only details which are shared and as given in Article 82.7 of Regulation 2447-2015 are:

- Name of registered exporter
- Address of registered exporter
- Contact details
- Indicative details of goods qualifying for GSP preferences (HS Codes)
- Identification number (TIN number)

Question 8: If an exporter has a multiple export product basket, who would be his Local User for Registration (REG)?

Reply: There is no regulation that bars the exporter from approaching any of the Local Users for REG which are the regional offices of the 17 Local Administrators for REG.. However, as a good practice he must approach the

Local User for REG who deals with his primary export product. The language used in Public Notice 51 dated 30.12.2016 is that the “---selection of the Local User for REG is to be made taking into account the products being exported-----”. The regional offices of the DGFT and EIC can be approached for all the products while some of the Local Users for REG specialize in specific products.

Question9: If an exporter has units in Special Economic Zones (SEZs), Export Oriented Units (EOU) and DTA, who would be his Local User for Registration (REG)?

Reply: As indicated in the reply above, there is no regulation that bars the exporter from approaching any of the Local Users for REG which are the regional offices of the 16 Local Administrators for REG.. However, as a good practice he must approach the Local User for REG which has the jurisdiction of the primary product of his export. The language used in Public Notice 51 dated 30.12.2016 is that the “---selection of the Local User for REG is to be made taking into account the products being exported, nature of his unit (SEZ or DTA) etc”. Therefore, the exporter can take his own decision on whether he wants to approach the office of the relevant Development Commissioner of the SEZ or any of the other Local Users for REG.

Question 10: Who should sign the application for registration?

Reply: The application must be signed by an authorised signatory of the exporter. This could be a proprietor, partner, Member in the Board of Directors etc. However, in case of any exigency, a power of attorney would suffice.

Question 11: What are the documents to be prescribed for the application?

Reply: India’s Local Administrator for administrative cooperation (ADC) has not prescribed any document for the application. However, some of the Local Administrator for REG have prescribed their own document set for their Local Users. Therefore, the practice may vary depending on the Local Users for REG. Some of the documents that have been prescribed by some of the Local Users for REG are copy of IEC, an undertaking that they are not insolvent etc.

Question 12: What should be the products that the exporter must mention in his application?

Reply: The exporter should specify all the products he is currently exporting or intends to export to the EU under the GSP. While, he can subsequently amend the details of his original application, he must exercise due diligence in ensuring that the product coverage is as wide as possible so that he does not have to approach the Local Users for REG frequently for amending his application..

Question 13: If the exporter wants to export a new product which is not listed in his application, does he have to modify his application before exporting?

Reply: There is no regulation of the EU that bars him from exporting a product under the GSP preference which is not listed in his application. Therefore, he can export any eligible product even if the same was not listed in the application. However, as a matter of prudence and good practice, the exporter must get his application modified with his local user as soon as possible to include the new product which he has exported. This is also the reason why the exporter must include a broad range of products in his initial application so that this situation does not arise.

Question 14: Since the format of the IEC number has been amended to an alphanumeric one (i.e. the PAN number), does the exporter whose has been registered with the erstwhile numeric IEC number, have to get a new REX number issued?

Reply: No, the exporters do not have get a new REX number issued. The local user would register the exporter as per the format of the IEC number he has i.e. whether 10 digit numeric (erstwhile IEC number) or the 10 digit alphanumeric (i.e. PAN number).

Self-Certification

Question 15: Who should be the signatory on the commercial document on which the “*Statement on Origin*” is made out?

Reply: The commercial document on which the “*Statement on Origin*” is made out should be signed by an employee of the exporter who would be taking on the responsibility of the veracity of the statement.

Question 16: What is the difference in the “*Statement on Origin*” for consignments below € 6000 and those above €6000?

Reply: The REX number is not required on the “*Statement on Origin*” for consignments which are below €6000. Else, the format of the “*Statement on Origin*” is the same and has to be made out on a commercial document such as commercial invoice, packing list of delivery notice.

Question 17: What are the documents that an exporter must maintain in the case of verification?

Reply: The commercial document on which the “Statement on Origin” is made out should be signed by an employee of the exporter who would be taking on the responsibility of the veracity of the statement

Miscellaneous

Question 18: Does EU GSP cover exports to a EU buyer who is importing for his unit in a 3rd country?

Reply: No, the EU GSP is applicable only for those exports which cross the EU customs territory and on which customs duty is leviable. Hence, any export to a 3rd country (barring the countries who use the EU GSP system such as Norway and Switzerland) irrespective of the nationality of the buyer is not eligible for EU GSP benefits.

Question 19: How much does India export under the EU GSP?

Reply: As per the data available for 2013-2015, more than half of India's exports to the EU are under the GSP preferences. The average exports from India to EU for the period 2013-15 is € 36.2 billion out of which € 19.5 billion is under the EU GSP.

Question 20: Whose name should appear on the commercial document?

Reply: For availing of EU GSP preferential benefits, the name of the exporter who is registered under REX must appear on the commercial document which has the statement of origin. In the absence of this, it is possible that queries may be raised by the EU customs.

Udyog Bhawan, New Delhi
Dated 17th April, 2017**Trade Notice No. 03**

To

1. All IEC holders/applicants
2. All EPCs/All Chambers of Trade and Industries
3. FIEO/ASSOCHAM/CII
4. All RAs of DGFT

Subject: Inclusion of details / clarification on the Certification of Origin of Goods for European Union Generalised System of Preferences (EU-GSP) - as notified vide Public Notice No.51 dated 30.12.2016

It is to bring to notice that the Registered Exporter System (REX) under the EU GSP was introduced in India vide Public Notice No. 51 dated 30.12.2016. During the period of its operation, request for clarifications have been received from various quarters. Accordingly, the following clarifications along with the updated list of Local Users for registration are notified (Annex-II) and other concerned agencies/ authorities:

Sl No.	Query	Clarification
(i)	What are the requisite documents to be submitted to the Local User along with the application for registration under REX system?	<p>The basic set of documents for an application for REX No are copies of</p> <p>i) IEC (Importer Exporter Code) ; and ii) Importer Exporter Profile</p> <p>The exporters should ensure the contact details in the IEC match with those in their application for registration. Else, the applicants should get their IECs updated with the latest details before applying for registration under REX.</p> <p>The Local Users for registration could prescribe additional documents, on a need basis but care must taken that the process is trade facilitatory. Further, Local Users for registration will also verify the DEL status of the IEC holder, and in case the firm is under DEL, application will not be accepted.</p>
(ii)	Who should sign the application for registration	The application must be signed by an authorised signatory or in exceptional cases by a power of attorney. A digitally signed application can also be accepted by the Local Users for

		registration.																																				
(iii)	What is TIN?	For India, the TIN number consists of the country code “IN” followed by <i>the 10 digit IEC number</i> ”																																				
(iv)	What is the Composition of the REX Number	<p>A REX number is allotted to exporters by Local Users after completion of registration. For India, the format of the 20 digit REX number is as under:</p> <table border="1"> <tr> <td>1</td> <td>2</td> <td>3</td> <td>4</td> <td>5</td> <td>6</td> <td>7 to 15</td> <td>16</td> <td>17</td> <td>18</td> <td>19</td> <td>20</td> </tr> <tr> <td>I</td> <td>N</td> <td>R</td> <td>E</td> <td>X</td> <td></td> <td>IEC number</td> <td>Alphabets assigned to Local Admn.</td> <td colspan="4">Number of the local user for REG</td> </tr> <tr> <td colspan="2">IN denotes India</td> <td colspan="3">Denotes REX number</td> <td colspan="2">10 digit IEC (Importer Exporter Code) number of exporter</td> <td>For eg: EC for EIC; DG for DGFT</td> <td colspan="4">Ranges from 001 to 999</td> </tr> </table>	1	2	3	4	5	6	7 to 15	16	17	18	19	20	I	N	R	E	X		IEC number	Alphabets assigned to Local Admn.	Number of the local user for REG				IN denotes India		Denotes REX number			10 digit IEC (Importer Exporter Code) number of exporter		For eg: EC for EIC; DG for DGFT	Ranges from 001 to 999			
1	2	3	4	5	6	7 to 15	16	17	18	19	20																											
I	N	R	E	X		IEC number	Alphabets assigned to Local Admn.	Number of the local user for REG																														
IN denotes India		Denotes REX number			10 digit IEC (Importer Exporter Code) number of exporter		For eg: EC for EIC; DG for DGFT	Ranges from 001 to 999																														
(v)	What happens in case a REX number is wrongly generated?	In case a REX number is wrongly generated, the Local Users for REG would need to revoke it and then create a new REX number. Revocation can only be done on the next day of creation of the REX No. and day after on the same IEC; a new REX registration can be done. However, for each revocation Local User for REG will seek confirmation from his Local Administrator for REG.																																				
(vi)	Can a revocation be annulled?	Yes, but for annulment of revocation, the prior approval from the Department of Commerce (which is the Local Administrator for Administrative Cooperation or ADC) is required.																																				
(vii)	Is REX registration required for export consignments below € 6000 ?	REX number is required as long as the value of consignment is above € 6000. However, multiple consignments in a single invoice should be considered as a single consignment and if the value of the Consignment is more than € 6000, REX number of the exporter is required to be reflected on the statement on Origin.																																				
(viii)	What is a Statement on Origin?	A Statement on Origin is statement of a registered exporter verifying the origin criteria for exports under the EU GSP. The format has been detailed in Annexure 1D of the Public Notice No. 51 dated 30.12.2016 and is available at http://dgft.gov.in/Exim/2000/PN/PN16/PN5116.pdf . It shall be made out on a Commercial document such as commercial invoice, packing list and delivery notice. It cannot be made on a transport document.																																				
(ix)	When is the Form A certificate to be issued?	The Form A certificate of origin can be issued during the transition period of 1 year (1.1.2017 to 31.12.2017) provided the																																				

		<p>exporter has not registered and obtained the REX number. For consignments below € 6000, no Form “A”- or REX number is required. For exports of € 6000 and above, Indian exporter can choose to issue / submit Form-“A” till 31.12.2017 or export their consignments with REX number (after registration under REX) and self certified Statement on Origin. If any EU buyer is insisting on Form-A, the above position may be clarified to them.</p> <p>In case the importer is not satisfied, matter may be brought to the knowledge of the Local Administrator for ADC (d1rmtr-doc@nic.in; usrmtr-doc@nic.in; moc_rmtr@nic.in).</p>
(x)	What is the retention period of the documents by the Exporter and local users?	The documents have to be maintained by the exporter for a complete period of 3 calendar years starting from the end of year when the exports have occurred.
(xi)	What is the frequency in which Exporters have to report/ submit their export data to the Local Users	Exporters are required to furnish fortnightly the commercial document on which the statement on origin is made to the Local User for REG through e-mail/ physical copy at local users e-mail ID Local Users must transmit the data of trade under EU-GSP scheme as fortnightly to their Head Office/ Local Admin

2. Attention of exporters and local users is also drawn to the following EU regulations that govern the EU GSP:-

- (a). **EU Regulation 2446/2015**
 - (i) Annex 22-03: rules of origin
 - (ii) Annex 22-04: materials excluded from regional cumulation
 - (iii) Annex 22-05: working excluded from cumulation
- (b). **EU regulation 2447/2015**
 - (i) Article 108: control of origin
 - (ii) Annex 22-06: application for registration
 - (iii) Annex 22-07: Statement on origin
 - (iv) Annex 22-08: Form A certificate of origin
 - (v) Annex 22-15: Suppliers Declaration
 - (vi) Annex 22-16: Long Term Suppliers Declaration

3. Attention of exporters is also drawn to the wholly originating criteria under EU-GSP wherein the following are required to be maintained at exporter’s end, for verification:-

- (i) Suppliers Declaration: Annex 22-15 of Regulation no. 2447/2015
- (ii) Long time Supplier*’s Declaration: Annex 22-16 of Regulation no. 2447/2015
- (iii) The exporter under EU-GSP must also ensure that his suppliers are aware of the Rules of Origin under EU-GSP and that the supplier knows the upstream chain

*Long term SD must be at least for 2 years

4. List of important URLs relating to REX is also annexed as at Annexure-I.

**TO BE PUBLISHED IN THE GAZETTE OF INDIA EXTRAORDINARY PART-1, SECTION-1
GOVERNMENT OF INDIA
MINISTRY OF COMMERCE AND INDUSTRY
DEPARTMENT OF COMMERCE
DIRECTORATE GENERAL OF FOREIGN TRADE**

**PUBLIC NOTICE NO.51/ (2015-2020)
NEW DELHI: DATED 30th December, 2016**

Subject: - Certification of Origin of Goods for European Union Generalised System of Preferences (EU-GSP) - Modification of the system as of 1 January 2017.

In exercise of powers conferred under paragraph 2.04 of the Foreign Trade Policy, 2015-2020, the Director General of Foreign Trade hereby inserts a new sub para (c) under Para 2.104 Generalised System of Preferences (GSP) as under:

(c) The European Union (EU) has introduced a self-certification scheme for certifying the rules of origin under GSP from 1.1.2017 onwards. Under the Registered Exporter System (REX) being introduced from 1.1.2017, exporters with a REX number will be able to self-certify the Statement on Origin of their goods being exported to EU under the GSP Scheme. The registration on REX is without any fee or charges and this system would eventually phase out the current system of issuance of Certificates of Origin (Form-A) by the Competent Authorities listed in Appendix-2C of FTP (2015-20) by 1.1.2018 (one year transition period). The details of the scheme are at Annex 1 to Appendix 2C of the Foreign Trade Policy (2015-20).

3. **Effect of this Public Notice:** Registered Exporters System (REX) as of 1 January 2017 for the EU Generalised System of Preferences (GSP) is notified.

(A.K.Bhalla)
Director General of Foreign Trade
Email: dgft@nic.in

[Issued from F. No.01/93/180/56/AM-13/PC-2B]

**Certification of Origin of Goods for the EU Generalised System of Preferences (GSP)-
Modification of the system as of 1st January 2017.**

Introduction:

1.1 The EU has been continuously undertaking reforms of its GSP rules of origin. One such reform finalised in 2011 relates to the self-certification of the rules of origin criteria by exporters themselves. The purpose of this reform is to facilitate trade and reduce administrative burden and costs for exporters.

1.2 Under the new scheme of self-certification, being introduced from 1.1.2017, the current system of issuance of certificates of origin (Form-A) by competent authorities as listed in Appendix 2C of Foreign Trade Policy (2015-20) will be replaced with “*statements on origin*” to be issued by exporters themselves. This “*statement on origin*” is to be made out on, on any commercial document (such as commercial invoice etc.) of the exported consignment. However, during the transition period of twelve months from 1.1.2017 until 31.12.2017, the competent authorities [as listed in Appendix 2C of the FTP (2015-20)] would continue to issue certificates of origin (Form A) at the request of exporters who are not registered in the REX system. At the end of this period, i.e. from 1.1.2018 onwards, the consignments above the value of € 6000 will be entitled to GSP preferential tariff treatment, only if accompanied by a statement on origin made out by a registered exporter. Exporters consigning low value goods (i.e. less than €6000 per consignment) are however entitled to make out statements on origin without being registered in REX, instead of submitting “Form- A” from 1.1.2017 itself.

1.3 As exporters are in the best position to assess the origin of their products, the European Union considers it appropriate that the exporters directly provide their customers in the EU with ‘*statements on origin*’ that no longer need to be endorsed by their national authorities. For this purpose, exporters will need to be registered by the competent authorities in an electronic system, named the REX system, or the ‘Registered Exporter System’.

1.4 The competent authorities would have access to the REX system for registration of exporters as well as access to relevant information. The registration of exporters in the system will not require any fees. An exporter will be registered in the system only once and the REX system will be common to the GSP schemes of the European Union, Norway, Switzerland and Turkey (based on Turkey fulfilling certain conditions).

1.5 The REX is a composite system relating to both registration of exporters and all other aspects related to the self-certification of the rules of origin under the EU GSP. The rules of the REX system are laid down in European Commission’s Implementing Regulation (EU) No 2015/2447 [the Union Customs Code (UCC) "Implementing Act"(IA)]. The details on the REX system are available at the following URL:

https://ec.europa.eu/taxation_customs/business/calculation-customs-duties/rules-origin/general-aspects-preferential-origin/arrangements-list/generalised-systempreferences/the_register_exporter_system_en

1.6 Questions and Answers on the reform of GSP rules of origin can also be accessed at http://europa.eu/rapid/press-release_MEMO-10-588_en.htm?locale=en

1.7 While the REX system will come into operation on 1.1.2017 and exporters will be able to submit their applications for registration under REX w.e.f 1.1.2017, the registration on the REX System will only be done when EU operationalizes the system and gives access to the system to competent authorities in India. Exporters may submit their applications to the competent authorities as listed in Annexure 1(b) who will receive such applications, verify the details therein and if accepted, these applications will be registered on the REX once their access to REX is permitted. Upon registration with REX, they will intimate the REX registration number and its validity date to the exporters through email and a communication at the address indicated in the application form.

2. Tasks and responsibilities of the competent authorities under the REX system:

2.1 Under the EU GSP self-certification system, all the beneficiary countries would have two types of competent authorities namely.

- i. Competent authority for administrative cooperation (ADC) which interfaces with the EU on issues related to the EU GSP and takes overall policy decisions on the EU GSP
- ii. Competent authority for registration (REG) which is responsible for registration of exporters through local users as also assistance related to verification.

2.2 Each of these competent authorities must have at least one local administrator namely

- i. Local administrator(s) for administrative cooperation (ADC)
- ii. Local administrator(s) for registration (REG)

The role of the local administrators is to create local users in their competent authority. Hence, the Local Users for registration (REG) would be created by the Local Administrators for registration (REG). The exporters would need to approach these local users for registration (REG) to undertake a one time registration for exports under the EU GSP self-certification.

2.3 The Department of Commerce is the Local Administrator of India for Administrative Cooperation (ADC) under the EU GSP self-certification scheme. Besides, the Department of Commerce, India would have sixteen Local Administrators for Registration (REG). The **Local Administrators for Registration** along with the name of their nodal officers, designation, email id and telephone numbers is listed at **Annexure-"1A"**. All these Local Administrators would access the REX system through their ECAS IDs. The Local Administrators for Registration on the request of the Local Administrator for Administrative Cooperation (i.e the Department of Commerce) will also provide all support requested by the Commission for the monitoring of the proper management of the scheme in the country, including verification visits on the spot by the Commission or the customs authorities of EU Member States.

2.4 The Local Administrators for Registration would nominate and create the **Local Users for Registration (REG)** in the REX system through their ECAS IDs. This would have to be done by logging into the T-REX (sub-component of the REX system) and registering the local users. Local

Administrators for REG would also train the Local Users in registering exporters under the REX system. Local Administrators for REG will maintain updated record of its Local Users for Registration (name, address, email id and phone no.) and intimate any change in details of Local Users for Registration to EU / Switzerland / Norway administrators and to Department of Commerce at the following email IDs

d1rmtr-doc@nic.in

usrmtr-doc@nic.in

moc_rmtr@nic.in

The Local users for Registration (REG) nominated by the Local Administrators for Registration are at **Annexure-"1B"**.

Updates on the REX system can be viewed at **dgft.gov.in**.

2.5 The Local Users for Registration shall undertake the following tasks:

- i. Disseminate information on the REX system to exporters and other stakeholders;
- ii. Receive signed applications for registration in REX from exporters in the requisite format (Annexure-"1C"). The REX system provides for a Pre-Application component (AREX Form) which allows exporters to fill their details in a REX Pre-Application form and print it. The same can be signed and submitted manually to the Local User. When being processed, the Local User will retrieve the related information using the exporter's IEC number/Importer Exporter profile.
- iii. Register Exporters on REX, using either details from Pre-Application (AREX Form) or using details from the paper based application signed and submitted by the exporter;
- iv. Check whether the applications submitted contains all the information required;
- v. Check that the applicants are established and functional manufacturers or traders, and their Importer Exporter Code (IEC) is not under DEL(Denied Entity List);
- vi. Enter information about the exporters into the REX system and assign registered exporter (REX) number, in the 20 digit format namely INREX [10 digit IEC number]- [2 digit alphabetical code for Local Administrator]-[3 digit numeric code for Local User for Registration beginning from 001 until 999]. The two digit alphabetical code for Local Administrator for Registration is given in Appendix IA while the term "INREX" stands for India REX,);
- vii. Inform exporters of their REX number; date of registration in REX any other relevant details through both email and a hard copy. The date from which the registration is valid should be the date on which the complete application was received by the Local User;
- viii. Store the application form in safe custody;
- ix. Keep the electronic record of registered exporters up-to-date;
- x. Recommend to the Local Administrator for Registration, the revocation of the exporter's registration if the exporter:
 - a. no longer exists, no longer intends to export goods under the GSP or no longer meets the conditions for exporting goods under the GSP;
 - b. intentionally or negligently draws up, or causes to be drawn up, a statement on origin which contains incorrect information and leads his customer to wrongfully obtaining preferential tariff treatment in the EU;
 - c. fails to keep information relating to his registration up-to-date, where this shortcoming is considered to be serious;

- xi. inform registered exporters whose registration has been revoked on the action taken for revocation of the date from which the revocation will take effect
- xii. carry out regular checks, verification and audits on registered exporters, based on the requests of EU Member States Or after obtaining the consent of both the Local Administrator for Registration (REG) and the Local Administrator for Administrative Cooperation (ADC).
The fees charged for checks, verification and audits will commensurate with the cost of services rendered. The Local User for Registration (REG) will provide details of the fees to be charged by it (including a rough estimate of the total cost to the exporter) to both the Local Administrator for Registration (REG) and the Local Administrator for Administrative Cooperation (ADC).
- xiii. Re-registration of the exporter based on the due process of checks and based on recommendation of the Local Administrator for Registration (REG).
- xiv. Send on a monthly basis, the summary of the “*statements on origin*” to the Local Administrator for Registration and the Local Administrator for Administrative Cooperation (ADC).

2.6 In accordance with Article 93 of the reformed EU GSP rules of origin under Regulation **2015/2447** the competent authorities must revoke a registration if the registered exporter no longer exists, no longer intends to export goods under the GSP or no longer meets the conditions for exporting goods under the GSP.

2.7 Without prejudice to the system of penalties and sanctions applicable in the beneficiary country, if a registered exporter intentionally or negligently draws up, or causes to be drawn up, a “statement on origin” which contains incorrect information and leads his customer to wrongfully obtaining preferential tariff treatment in the EU, the Local User must recommend revocation of the exporter’s registration to the Local Administrator for Registration. The Local User for Registration may also recommend revocation to the Local Administrator for Registration if the registered exporter fails to keep information relating to his registration up-to-date and this shortcoming is considered to be serious.

2.8 Without prejudice to the possible impact of irregularities found on pending verifications, revocation of the registration can only take effect for statements made out after the date of revocation. Exporters whose registration has been revoked may only be registered again if they prove that they have remedied the situation.

2.9 An appeal against the revocation and annulment of the Registration of an exporter shall lie with the Local Administrator for Administrative Cooperation (ADC).

3. Tasks and Responsibilities of the Registered Exporters under the REX System

3.1 To be registered, an exporter must file an application with one of the Local Users for Registration (REG). The selection of the Local User for Registration (REG) is to be made taking into account the products being exported, nature of the unit (SEZ or DTA) etc. . The application must be made using the form set out in **Annexure -"1C"** and must contain all the information. Exporters will also have the possibility to pre-encode their application in the Pre-Application component (AREX Form) of the REX system and print it. Paper copy of the application with hand-written signature has to be submitted to the Local User. The application will only be accepted by the competent authorities if it

is complete. Registration is valid from the moment a complete application is submitted by the exporter. There is no impact on the exporter if there is a technical problem for the registration or if the competent authorities have organizational difficulties to register the exporter immediately.

3.2 An exporter will be registered in the system only once, as the REX system is common to the GSP schemes in the EU, Norway and Switzerland. It will also apply to Turkey's GSP scheme, once that country meets certain conditions. However, these GSP schemes may differ in terms of country and product coverage. As a result, a particular registration will only be effective for exports under a GSP scheme that considers India as a beneficiary country.

3.3 By completing the form, exporters consent to this information being stored in the Commission's database and being published on a publicly accessible website. In column 6 of the application form the Exporter must indicate as to whether the information furnished by him can be published on the public website. If the exporter gives his consent, the IEC number, name, address, contact details and the registered exporter and the indicative description of his goods which qualify for preferential treatment are made public on the Internet. If the exporter doesn't give his consent, only the REX number, its validity date, address where the registered exporter is established and date of the revocation of the registration where applicable, is shared on the internet; besides also indicating as to whether the registration applies also to exports to Norway or Switzerland.

3.4 Exporters, whether registered or not, (i.e even those whose consignment values are less than €6000) must comply with the following obligations:

- i. they must maintain appropriate commercial accounting records for the production and supply of goods qualifying for preferential treatment;
- ii. they must keep available all evidence relating to the material used in manufacturing these goods;
- iii. they must keep all customs documentation relating to the material used in manufacturing these goods;
- iv. for at least three years from end of the calendar year in which the statement on origin was made out, or more if required by national law, they must keep records of:
 - v. the statements on origin they made out, and
 - vi. details of their originating and non-originating materials, its production and stock accounts.

3.5 These records and statements on origin may be kept in an electronic format but must allow the materials used in manufacturing the exported products to be traced and their originating status to be confirmed. These obligations also apply to suppliers who provide exporters with supplier's declarations certifying the originating status of the goods they supply.

3.6 Registered exporters must immediately inform the competent authorities (i.e. Local User for Registration where exporter applied for REX No.) of changes to the information they provided during registration. Registered exporters who no longer meet conditions for exporting goods under the scheme or no longer intend to export goods under the scheme must inform the competent authorities of this.

3.7 The Registered exporters would provide a summary of the “statement on origin” to the Local Users for Registration. This summary would contain the following details:

- i. HS Code,
- ii. Description,
- iii. Document No/ date on which Statement on Origin is made out,
- iv. FOB value of exports (in \$),
- v. destination port,
- vi. destination of export
- vii. Origin Criteria, W/P HS four digit

4. Documents to be used by the exporters registered in REX

4.1 The “*statement on origin*” is made out by the registered exporter in the country of export to the EU as soon as the exportation has taken place or is ensured, if the goods can be considered as originating in the beneficiary country concerned. However, the registered exporter must indicate another beneficiary country on the “*statement on origin*” if:

- Regional or inter-regional cumulation takes place between the beneficiary countries in question, and
- In the country of export to the EU, the goods were subject to working or processing operations insufficient to confer origin as listed in Article 78(1) (b) to (q) of the reformed EU GSP rules of origin.

4.2 The exporters must provide the statement on origin to their customer(s) in the EU. It must contain the details specified in **Annexure “1D”** of this document. A “*statement on origin*” may be made out in English or any other language approved in the EU regulations on any commercial document allowing the exporter, consignee and the goods involved to be identified.

4.3 When bilateral or regional cumulation applies, the exporter of a product manufactured using materials originating in a party with which cumulation is permitted, can rely on the “*statement on origin*” provided by its supplier. In these cases, the “*statement on origin*” made out by the exporter must contain the indication: ‘EU cumulation’ or ‘regional cumulation’;

4.4 When cumulation under Article 85 of the reformed EU GSP rules of origin applies, the exporter of a product manufactured using materials originating in a party with which cumulation is permitted, can rely on the proof of origin provided by its supplier and issued in accordance with the provisions of GSP rules of origin in Norway or Switzerland (and, in future, Turkey). In these cases, the statement on origin made out by the exporter must contain one of the indications:

‘Norway cumulation’, or ‘Switzerland cumulation’ or ‘Turkey cumulation’.

4.5 When extended cumulation under Article 86(7) and (8) of the reformed EU GSP rules of origin applies, the exporter of a product manufactured using materials originating in a party with which extended cumulation is permitted, can rely on the proof of origin provided by its supplier and issued in accordance with the provisions of the relevant free-trade agreement between the EU and the relevant

party. In these cases, the statement on origin made out by the exporter must contain the indication-
'extended cumulation with country 'X'.

4.6 A “*statement on origin*” must be made out for each consignment. In exceptional circumstances, a statement on origin may be made out after the goods have been exported (‘retrospective statement’) as it is presented in the Member State of declaration, for release for free circulation, no more than two years after the goods were imported. A statement on origin is valid for 12 months from the date on which it is made out.

4.7 A single “*statement on origin*” may cover several consignments if the goods meet the following conditions:

- i. They are dismantled or non-assembled products within the meaning of general rule 2(a) of the Harmonised System.
- ii. are falling within Section XVI or XVII or heading 7308 or 9406 of the Harmonised System, and
- iii. are intended to be imported in installments.

Information notice

Concerning the protection and processing of personal data incorporated in the system

1. Where the European Commission processes personal data contained in this application to become a registered exporter, Regulation (EC) No. 45/2001 of the European Parliament and of the Council on the protection of individuals with regard to the processing of personal data by the Union institutions and bodies and on the free movement of such data will apply. Where the competent authorities of beneficiary country or a third country implementing Directive 95/46/EC process personal data contained in this application to become a registered exporter the relevant national provisions of the aforementioned Directive will apply.
2. Personal data in respect of the application to become a registered exporter are processed for the purpose of EU GSP rules of origin as defined in the relevant EU legislation. The said legislation providing for EU GSP rules of origin constitutes the legal basis for processing personal data in respect of the application to become a registered exporter.

3. The competent authority in a country where the application has been submitted is the controller with respect to processing of the data in the REX system. The list of competent authority/customs departments is published on the website of the Commission.
4. Access to all data of this application is granted through a user ID/password to users in the Commission, the competent authorities of beneficiary countries and the customs authorities in the Member States, Norway, Switzerland and Turkey.
5. The data of a revoked registration shall be kept by the competent authorities of the beneficiary country and the customs authorities of Member States in the REX system for 10 calendar years. This period shall run from the end of the year in which the revocation of a registration has taken place.
6. The data subject has a right of access to the data relating to him that will be processed through the REX system and where appropriate, the right to rectify erase or block data in accordance with Regulation (EC) No. 45/2001 or the national laws implementing Directive 95/46/EC. Any requests for right of access, rectification erasure or blocking shall be submitted to and processed by the competent authorities of beneficiary countries and the customs authorities of Member States responsible for the registration, as appropriate. Where the registered exporter has submitted a request for the exercise of that right to the Commission, the Commission shall forward such requests to the competent authorities of the beneficiary country or the customs authorities of Member States concerned, respectively, if the registered exporter failed to obtain his rights from the controller of data the registered exporter shall submit such request to the Commission acting as controller. The Commission shall have the right to rectify, erase or block the data.
7. Complaints can be addressed to the relevant national data protection authority. The contact details of the national data protection authorities are available on the website of the European Commission, Directorate General for Justice:
(http://ec.europa.eu/justice/data-protection/bodies/authorities/eu//index_en.htm#h2-1).
8. Where the complaint concerns processing of data by the European Commission, it should be addressed to the European Data Protection supervisor (EDPS):
(<http://www.edps.europa.eu/EDPSWEB/>)

⁽¹⁾ The present application form is common to the GSP schemes of four entities, the Union (EU), Norway, Switzerland and Turkey (the entities). Please note, however, that the respective GSP schemes of these entities may differ in terms of country and product coverage. Consequently a given registration will only be effective for the purpose of exports under the GSP scheme(s) that consider(s) your country as a beneficiary country.

⁽²⁾ The indication of EORI number is mandatory for EU exporters and re-consignors. For exporters in beneficiary countries, Norway, Switzerland and Turkey, the indication of TIN is mandatory.

STATEMENT ON ORIGIN

To be made out on any commercial documents showing the name and full address of the exporter and consignee as well as a description of the products and the date of issue ⁽¹⁾

The exporter ... (Number of Registered Exporter (₂)(₃)(⁴) of the products covered by this document declares that, except where otherwise clearly indicated, these products are of... Preferential origin ⁽⁵⁾ according to rules of origin of the Generalised System of Preferences of the European Union and that the origin of the Generalised System of Preferences of the European Union and that the origin criterion met is ... ⁽⁶⁾.

-
- (1) Where the statement on origin replaces another statement in accordance with Article 97d(2) and (3), the replacement statement on origin shall bear the mention "Replacement statement". The replacement shall also indicate the date of issue of the initial statement and all other necessary data according to Article 97d(6).
 - (2) Where the statement on origin replaces another statement in accordance with subparagraph 1 of Article 97d(2) and paragraph (3) of Article 97d, the re-consignor of the goods making out such a statement shall indicate his name and full address followed by his number of registered exporter.
 - (3) Where the statement on origin replaces another statement in accordance with subparagraph 2 of Article 97d(2), the re-consignor of the goods making out such a statement shall indicate his name and full address followed by the mention (English version)" acting on the basis of the statement on origin made out by [name and complete address of the exporter in the beneficiary country] registered under the following number [Number of Registered Exporter of the exporter in the beneficiary country]"
 - (4) Where the statement on origin replaces another statement in accordance with Article 97d(2), the re-consignor of the goods shall indicate the number of registered exporter only if the value of originating products in the initial consignment exceeds EUR 6 000.
 - (5) Country of origin of products to be indicated. When the statement on origin relates, in whole or in part, to products originating in Ceuta and Melilla within the meaning of Article 97j, the exporter must clearly indicate them in the document on which the statement is made out by means of the symbol "XC/XL".
 - (6) Products wholly obtained: enter the letter "P", Products sufficiently worked or processed: enter the letter 'W' followed by a heading of the Harmonised System (example "W"9618).
Where appropriate the above mention shall be replaced with one of the following indications:
 - (a) In the case of bilateral cumulation: "EU cumulation".
 - (b) In the case of cumulation with Norway, Switzerland or Turkey: "Norway cumulation", "Switzerland cumulation" or "Turkey cumulation".
 - (c) In the case of regional cumulation: "regional cumulation".
 - (d) In the case of extended cumulation: "extend cumulation with country x".

NOTICE

With effect from 1st January 2017, the procedure for certification of origin of goods under EU GSP has changed to self certification of origin of goods by the exporters. The GSP Form A will be replaced by statement of origin as a proof of origin.

Self certification of origin of goods is applicable to those exporters who intend to export to EU and they need to get themselves registered in the Registered Exporter System of EU. They are advised to follow the below procedure for self certification of Origin of Goods under EU GSP Scheme (REX).

1. Procedure for Registration of Exporters in Registered Exporter (REX) of EU

- The exporter shall fill in (electronically/on paper) an application form as per Annex 22-06 of implementing Regulation (EU) 2016/1011 (APPENDIX-1C of DGFT Notification No.51) (Copies enclosed).

He can also pre-fill the application form through the internet available on Europa website. (url address for PRE Application: <http://customs.ec.europa.eu/rex-pa-ui>)

The exporter validates the information, saves the pre-application form and takes the print, signs it and submits it to the Local User office designated to register the exporters. He shall submit application signed in original to one of the Local User depending upon the product to be exported, nature of unit (SEZ or DTA) etc.(List of Local Users under EIC enclosed). He also has an option to submit the paper copies to the local user without filling the pre-application form on the internet.

A Registered Exporter Number shall be assigned to the exporter by the Competent Authority which will be mentioned by the exporter in the statement on origin made for each consignment.

2. List of Documents at the time of filing application for Registration

- Duly filled application form (2 sets signed in original) with reference tag.
- Self attested copy of IEC Certificate.
- Self attested copy of any one of these document viz. ROC/VAT/TIN/Telephone bill (MTNL/BSNL)/Central Excise

(2)

Registration or any other Government document that has the address of the company (To ascertain that the exporter exists on this address).

- Undertaking as per Appendix I including the list of Authorised Signatories with Name and Designation to sign statement on origin on any commercial document (like commercial invoice etc.)

(The Authorised Signatories shall be the exporter's employee holding a responsible post in the company and has good understanding of the requirements of schemes of GSP including rules of origin).

After receipt of all the required documents, verification of data provided in the application form is correct and complete, REX Number will be assigned to the exporter and notified to the exporter along with details as date of registration and date from which the registration is valid.

Summary of the Statement on origin as per DGFT Notification (Appendix-III shall be submitted by the registered exporter to the local user every month.
